

14 March 2022

Mr John Clark
General Manager
Canada Bay Council
Locked Bag 1470
DRUMMOYNE NSW 1470

Dear Mr Clark

Night work: Wastewater system maintenance in your local government area

Sydney Water's contractor, Veolia Environmental Services, need to inspect and complete maintenance work in wastewater pipes from maintenance holes on the road and nature strips in Lloyd George Avenue between Ada Street and Parramatta Road, Concord (see map over the page for the location of pipeline). This work is essential to help ensure our wastewater system remains reliable to protect public health and the environment.

Due to safety requirements, busy traffic conditions on Lloyd George Avenue and high flows in the wastewater system during the day, we need to do this work at night.

Work will start on Monday, 21 March 2022 and take about one week to complete. We expect to finish by Saturday, 26 March 2022, weather permitting.

Our work hours are 8 pm to 5 am Monday and Friday nights.

The work involves setting up equipment around the maintenance holes, entering the holes, CCTV and cleaning wastewater pipes.

We will use specialised equipment such as drain cleaners and water vacuum trucks and at the end of each shift, the equipment will be removed to allow for normal traffic and pedestrian flows.

This work will progress along the pipeline as needed, so it is unlikely that the work will be outside properties for extended periods of time.

We'll make every effort to minimise disturbance by:

- not running motors and equipment unnecessarily
- keeping vehicle movements to a minimum
- pointing lights at the work site and away from homes.

During the work, local residents and businesses may notice an increase in vehicle movements, noise, odour and temporary disruption to traffic. We will have traffic controls in place to safely maintain traffic flow and minimise disruption.

This work will not interrupt wastewater or water services.

We've notified affected businesses about this work.

To find out more about this work, please call Blake Newall, Veolia Environmental Services on 0447 778 310.

For other Sydney Water repairs or faults, please call 13 20 90 (24 hours). For billing and general enquiries, call 13 20 92.

Yours sincerely

Haleema Schmiat
A/Contract Manager
