

## Rozelle Interchange weekly update | from Monday 27 March

Date published: 22 Mar 2023

---

Good afternoon

We hope you've had a great week so far. This update includes information about:

- temporary closure of Iron Cove Bridge westbound lanes
- reminder: Lilyfield Road detour during temporary closure
- night work next week

---

### Temporary closure of Iron Cove Bridge westbound lanes

A temporary closure of the westbound lanes is required for electronic signage to be installed on Iron Cove Bridge **(from Park Avenue Drummoyne to Terry Street Rozelle)**.

To take advantage of lower traffic volumes **this work will be done at night from approximately 9pm until 5am the following morning on Tuesday 28 March**.

Please note work is weather dependent and may need to be rescheduled in the event of wet weather or unforeseen circumstances. We will provide advanced notice if this happens.

Under the closure, traffic control will guide motorists across Iron Cove Bridge using only the citybound lanes. Detours will be in place for some motorists. Pedestrians and cyclists will still be able to use both sides of Iron Cove Bridge.

**The westbound bus stop on Victoria Road near Callan Street will be temporarily relocated further up Victoria Road near Springside Street during the work.** Traffic controllers will be on hand to assist while the work takes place.

A detailed map of the closure is shown below. Please follow signage and take care when travelling through the area.

## Reminder: Lilyfield Road detour during temporary closure

Since the temporary closure of Lilyfield Road at Victoria Road was put into place in January, work has begun on rebuilding the junction including the following key features listed below.

- new road and footpath pavements
- new pedestrian stairs to the future Rozelle Parklands and Victoria Road bridge underpass – this is an additional scope of work requested by the community and approved earlier this year
- a permanent speed hump to slow down vehicles entering Lilyfield Road
- new road drainage infrastructure.

**We would like to remind motorists and project workers to use alternate routes via Balmain Road or Darling Street as shown on the map below.**

When Lilyfield Road reopens in May 2023 all pre-construction traffic movements will return at this intersection.

## Lilyfield Road closure at Victoria Road

## Night work

There will be more night work required over the coming months as we progress towards the permanent (end state) road alignment and signage installation. In response to feedback from residents, we've included **key activities** at each location that are expected to have a high noise impact.

Please note work is weather dependent and may need to be rescheduled if it rains. We'll provide you with advance notice if this happens. As this work takes place on major roads it must be completed at night when traffic volumes are lowest and safety can be maintained for workers and the community.

## **Annandale, Lilyfield & Rozelle**

Night work is scheduled for one night next week **between 7pm and 6am:**

- **Friday 31 March**
